Want to add Flash, MP3's, QuickTime, YouTube and more media to your YaBB 2 forum? Then you need Spikecity's YaBB Media Center mod available on BoardMod.

Spikecity's YaBB Media Center mod adds the ability to embed media files inside the posts on your YaBB 2 series forum. It supports It accepts .wma, .wax, .asx, .mid, .rmi, .wav, .wmv, .mp3, .avi, .mpg, .mpeg, .kar, .wpl, .asf, .rm, .ra, .ram, .qt, .mov, .qtm and YouTube files and loads up the appropriate html player inside the message.
